white

### ABOUT SKATE PARK FORMULA™ (SPF)

Skatepark Formula™ (SPF) is very high quality urethane specifically formulated to resist flatspotting on slick or smooth surfaces while maintaining a higher rebound for a quicker response and a faster roll.

Skatepark Formula™ has a high resistance to abrasion while not compromising hardness and slide ability. Simply put... Skatepark Formula wheels grip better on slick surfaces, are almost impossible to flatspot, and are the fastest, longest lasting wheel on the market today.

You won't find our Skatepark Formula from any other wheel supplier so get a set and find out for yourself what the word on SPF is all about.

Wheel Core  
None

Wheel Diameter  
58mm
