CAPTAIN FIN QUAD FORMER TWAD SINGLE TAB 4 FINS SET

Can't decide whether to ride a quad or twin fin set up? Then these are the fins for you, large upright Twins at the front with smaller trailers in the back. the freedom of a Twin fin with the added hold of a quad. The perfect combination!

Dane Reynolds and Channel Islands mastermind Britt Merrick have been working together a long time. The latest collaboration of this famous relationship is the CI/Former TWAD board and fin set that started as a hand shape Britt did for Dane when he requested a parallel railed, curvy-rockered twin. This combination evolved into the Twad—a twin and a quad. The board and fin set up have twin fin sensibilities with trailing fins that are smaller and placed more closely to the twins than normal quads. This creates a board that feels uniquely loose but solid. Dane and Britt then designed and hand cut the templates for each fin and the result is this amazing set built for a limited release.
