CAPTAIN FIN TYLER WARREN TW TWIN + TRAILER SINGLE TAB YELLOW
Template:Pivot

Construction: Fiberglass

Flex: Stiff

Compatibility: Futures (Single Tab)

Available in either Honeycomb (black) or fiberglass (yellow), the Tyler Warren Twin and Trailer was designed for maximum down the line speed and smooth rail-to-rail surfing. Created with fish shapes like winged swallows in mind, it can be used in for a variety of boards from twins to thrusters. Used in a thruster it makes it a lot looser for those small, mushy days. According to Tyler, "It should provide plenty of grip for you to rip!" Ride on man.
