### CARVER 31" KAI LENNY LAVA SURFSKATE COMPLETE CX/C7

#### PRO MODEL - KAI LENNY

Maui native Kai Lenny defies easy categorization, having truly mastered so many board riding disciplines that listing them all seems impossible; Surf, Hydrofoil, Kite, Windsurf, Stand Up Paddle, Prone Paddle, Outrigger Canoe, Big Wave Tow-In, and now Surfskate. A first to do many things, break records and exceeds the imaginable over and over, this Surfing Hall of Famer is widely considered one of the best waterman in history. So when we saw him surfskating on his own Carver with his inimitably bold style we were stoked. Kai is a true aloha ambassador, and we're proud to have him help spread the surfskate stoke with his sunny smile and charging feats.

#### 31" KAI LAVA:

Kai created this Lava pattern for his upcoming surfboard quiver and wanted to use it on this mid-sized mainstay too, pressed in the Hyperspoon mold for a deep-dish spoon nose contoured for your carving pleasure.

Truck Option: CX

Truck Color Option: Raw Only

Wheels: 69MM Smoke Concave

Bearings: Built-In

Grip Tape: Deck Pad

Hardware: Stainless Steel

Length: 31"

Width: 9 7/8"  
Wheelbase: 16 1/2"  
Nose: 3 3/8"  
Tail: 6 1/4"

#### RESIN SERIES - RYAN MARTZ

Growing up, Ryan Martz was surrounded by a steady stream of the most skilled glassers on the coast, so it's no wonder that he is now one of the most sought after resin artists in the world. Ryan's dad Greg Martz started the Waterman's Guild in 1983 to create the best glass shop in Southern California, where Ryan learned his trade.

"Growing up under my dad, he was a perfectionist, so he drove that quality is always the bottom line here, and that's been present since day one." Paying his dues and working up the ranks, Ryan has developed his own signature style of resin work, each a one-of-a-kind painting made in flowing pigments that recall the movement of water or fire, frozen in time. Returning for his third resin series for Carver, Ryan made these custom designs the old school way, with pigmented resin on fiberglass for a true surf/skate graphic.

#### 30.25" FIREFLY:

A slightly shorter version of our classic Resin, this nimble model is a little snappier and easier to pump for smaller riders looking for their go-to surfskate. A proven favorite that's just the right length so you can pump it with ease and still drop in on any hill with confidence, this is the standard by which all others are measured.
