

FCS II AL MERRICK PG PRO TRI FIN SET BLACK ACID

Code: FAMM-PG01-MD-TS-R

€ 129,95

FCS

FCS II AL MERRICK PG PRO TRI FIN SET BLACK ACID

Overview

Al Merrick's signature template is designed for radical, progressive surfing. The raked side fins produce exceptional speed and drive, while the smaller centre fin on the medium and large template offer quick release through turns.

Suited to hollow steep waves and punchy beach breaks. Recommended for performance board with deep concaves and moderate-to-extreme rocker.

The raked side fins produce exceptional speed and drive, while the smaller centre fin on the medium and large templates offer quick release through turns.

Ideal Conditions

Hollow steep waves, punchy beach breaks.

Board Types

Designed to fit the FCS II Fin System.
Performance boards with deep concaves and moderate-to-extreme rocker.

Fin Family

Carver: Find Power. Powerful, drawn-out turns with added hold.

Performance Glass

Solid fibreglass fins have for decades been the go-to construction for many of the worlds best surfers.

Performance Glass (PG) fins are machine-cut from layers of solid fibreglass. These fins are stiff and are widely used by pro-level surfers because the integrity of the flex is maintained under immense force, and in the most extreme of conditions and situations.

PG fins have very fast memory recall which translates into speed. These fins generally sit at the higher end of the stiffness scale, providing immediate response and acceleration as the surfer powers up and drives through a turn.

MEDIUM (65Kg - 80Kg / 145 - 175 Lbs)

LARGE (75Kg - 90Kg / 165 - 200 Lbs)
