FCS

FCS II PINNE CHRISTENSON KEEL FIN SET

Designed with plenty of curve in the leading and trailing edge to provide smooth rail to rail transitions. A thicker, flat foil provides grip through big turns and open face waves.

Board Types

Designed to fit the FCS II Fin System.

Recommended for all board types including fish, funboard and twin fin boards.

Performance Glass

Performance Glass (PG) fins are machine cut from layers of solid fiberglass. These fins are stiff, and are widely used by pro level surfers because the integrity of the flex is maintained under immense force, and in the most extreme of conditions and situations.

X-LARGE (Over 85Kg / 190 Lbs)
