

# FCS II REACTOR NEO GLASS ECO TRI FIN SET ASH MEDIUM

Code: FREA-NG04-MD-TS-R

€ 85,00

FCS

### FCS II REACTOR NEO GLASS ECO TRI FINS

The ideal fin for surfers who like to perform fast, progressive turns. Best suited to hollow waves, and particularly good for beach breaks. The Reactors upright template allows for tighter, more acute directional changes. Constructed with 50% glass and bioresin, the Neo Glass Eco Reactor has a low impact construction with high impact performance that's recommended for lighter more agile surfers.

MEDIUM (65Kg - 80Kg / 145 - 175 Lbs)

Designed for speed and tight turns, with added tail release. Upright template allows for tighter, more acute directional changes. Smaller centre fin for increased pivot and tail release. Ideal for surfers who like to perform fast, progressive turns. Medium Tri (3) Fins

**Ideal Conditions** 

Suitable for hollow waves, particularly good for beach breaks.

**Board Types** 

Designed to fit the FCS II Fin System.

Recommended for performance shortboards with moderate-to-low rocker.

Fin Family

Reactor: Find Speed. Speed, tight turns & snaps.

### Neo Eco

### About Eco Blend

At FCS, we've made it our mission to minimise our footprint by designing high quality products that use low impact, sustainable materials. Constructed with 50% glass and bio-resin, the Neo Glass Eco Blend range has a low impact construction with high impact performance that's recommended for lighter more agile surfers. The new range also sees reduced use of fossil fuels and a smaller carbon footprint than traditional materials.

## Sustainability & Community

Our Eco Resin is created by Arkema, a founding member of Pragati, the sustainable castor initiative. Pragati trains farmers to build capacity, improve yields, and reduce environmental impacts, thus helping them to cultivate castor beans effectively and ecologically. The initiative also provides educational materials to improve the skills and knowledge of the local farmers, to improve their income, and to ensure better health and living conditions.
