### FCS II SALLY FITZGIBBONS TRI FINS

#### Overview

Sally Fitzgibbons's signature fin. The smaller centre fin provides exceptional tail release. Ideal for beach breaks.

#### Ideal Conditions

Hollow steep waves, punchy beach breaks.

#### Board Types

Designed to fit the FCS II Fin System.  
Performance boards with shallow concave and moderate-to-low rocker.

#### Fin Family

Reactor: Find Speed. Speed, tight turns & snaps.

#### Performance Core

Performance Core (PC) fins are made using a multi-layered resin transfer molding process. The flex pattern in PC fins extends progressively from the base through to the tip, helping the surfer to maintain drive and hold through a turn. This versatile fin material is light, and can be used in a variety of different conditions.
