FUTURES FINS CONTROLLER ALPHA QUAD

The Controller Alpha is a large size quad set with a Ride Number of 5.7. Designed specifically for the classic, wide-tailed retro board the Alpha Controller is effectively a split keel and offers a unique blend of twin and quad characteristics. The C6 material, V2 foil and large surface area create both drive and control, while the upright rear template mixes in a skatey feel to the set as a whole. All Alpha products are designed and manufactured exclusively in Huntington Beach, Ca USA.

THE FIRST SURF FINS MADE FROM RECYCLED FISHING NETS.

Made in California, the Alpha product line is now made by incorporating Bureo's NetPlus recycled fishing nets with Futures' compound 6 Carbon and Air infused technology. NetPlus material is sourced from Bureo's fishing net recycling program in Chile, which provides collection points to keep plastic fishing nets out of our oceans. Preventing harmful materials from entering the ocean, their program protects wildlife and supports local fishing communities through financial incentives.

Our Alpha product line is molded carbon fiber made in Huntington Beach, California that delivers every bit of performance you'd expect from an upgrade fin at a Balanced Ride Number. Incredibly lightweight & resilient, Alpha is the first of its kind; created using one-of-a-kind materials and new technologies developed by Futures.
