FUTURES HS1 GENERATION

The next level in speed generating fins is here with the all new Generation Series. These fins will provide all the speed you need while maintaining an element of control. Sitting one notch below the Blackstix on our Ride Number scale, all Generation Series fins hold Ride Numbers between 9 to 7, for those of you looking for a bit more stability & drive than Blackstix.

GENERATION SERIES

Generation fins combine the perfect blend of unique carbon & fiberglass layups to provide all the speed you need while maintaining an element of control.

V2 FOIL

A V2 Foil is a V. Foil and Flat Foil blend. It takes the best speed generating attributes of the V. (at the base) and transitions into a flat foil in the tip for a controlled release in critical turns. Try the V2 foil if you are transitioning from flat sided fins. The benefits of the V. foil base will be noticeable but the change for your muscle memory will not be too drastic.
