FIREWIRE ROB MACHADO WEEKEND TRACTION PAD 4 PIECE MID-LENGTHS & LONGBOARDS

Designed for the surfer seeking trim and glide above all else, but just enough grip to accommodate drawn out shoulder turns better than wax can, the Weekend pad was created with mid lengths in mind.

Designed in four pieces, the Weekend is longer than most traction pads, cut specifically to accommodate different turning positions beneath your back foot, whether climbing the wave face with back foot more forward on the tail, or cutting sharp angles in the pocket with back foot behind the fin cluster.

Riding mid length surfboards creates opportunity for shuffling stance, and the Weekend accommodates this perfectly.

2.5mm thick

Rectangle tread

3M adhesive backing
