FUTURES FINS AM1 HONEYCOMB THRUSTER

The AM1 Honeycomb designed by legendary shaper Al Merrick of Channel Islands Surfboards, is a medium size thruster in the Rake template category. Featuring a balanced flex pattern, this fin's wider base provides increased drive through turns, making it ideal for high performance surfing. The center fin is smaller than the side fins for increased maneuverability. Futures Fin Key included

CONSTRUCTION

HONEYCOMB

A lightweight hexagonal core gives these fins the feel of glass-ons. Engineered with a medium flex pattern, these are stiffer than Blackstix but more flexible than Fiberglass.

FOIL

FLAT FOIL

Flat foiled fins break free sooner, and are better at controlling speed. Often surfers prefer them in fast powerful surf where they do not need to create additional speed. If you have muscle memory from riding glass-ons, flat foiled fins will feel the closest.

SIZE:

Medium (145lbs - 195lbs) (65kg - 88kg)

SIDE FINS:

HEIGHT: 4.50"

BASE: 4.50"

AREA: 14.84"

CENTER FIN:

HEIGHT: 4.29"
