FUTURES FINS DHD THRUSTER LARGE

THRUSTER BALANCED RIDE NUMBER 5.8

The DHD fin, is a large honeycomb template with a Balanced Ride Number. The DHD fin falls in to the template category, Rake, for its swept back shape giving the surfer more hold and drive in turns.

"The DHD Future fin is a template designed to work well in all conditions. Having worked with our elite team riders on this fin template for a number of years we are stoked to release a fin with Futures that will compliment our boards and improve your performance in the surf."

Honeycomb

ALL-AROUND PERFORMANCE

Honeycomb fins have a lightweight hexagonal core which reduces the weight and maintains the flex properties. These fins are engineered with a medium flex pattern, making them stiffer than Blackstix but more flexible than fiberglass. These fins have a Ride Number range of 4-7 and are great all around fins for any condition.
