FUTURES MAYHEM SMALL THRUSTER PINK TEAL

THRUSTER - BALANCED - RIDE NUMBER 6.3

Futures and Matt Biolos, aka Mayhem, have refined the ever popular MB template into a full size run. By comparison to the previous version, the width of the base has been increased to provide more drive through turn while still keeping the template in the neutral category. The carbon panels in the base makes the fin more stable, providing a more controlled feel. To compliment the control, we tuned in the tip to allow for additional flex for a true performance feel. The new Mayhem thruster is offered in sizes small, medium, and large.
