JUST FUNBOARD SOCK COVER

Ideal soft cover for your daily commute, the Just sock provides daily protection for your surfboard from impacts, dirt and sun.

Also avoid transferring wax onto the seats of your car :-).

It has a reinforcement on the tail that allows you to leave the fins mounted on the board when you store it in the bag. For added protection there is additional padding on the nose.

Due to its shape, this model is particularly suitable for "fish" type surfboards and boards with a rounded nose.

Characteristics :

- Super soft and thick stretch fabric
- reinforced fabric in the position of the fins to avoid any perforation of the cover
- drawstring closure with button
