LOST PUDDLE JUMPER ROUND PIN SHORTBOARD 5'8"

5'8" x 21 x 2 1/8"

33,9 Lt

Over the course of 2015, we made a few of these round tail PJ's as custom orders mainly for people looking to get a little more range out of a board design they really liked. It's essentially the same board as before, but with a rounded tail that is narrower in the last 18", and with just a subtle bit of extra rocker bent into the tip and tail. The stock dims are scaled a bit differently, taking into account that many people will ride the round tail 1" – 2" longer than the original squash tail PJ. This board will still ride very small waves with ease, yet can be ridden in much larger and powerful surf than the OG Puddle Jumper. The curvier outline (and slightly extra end rocker) fits better in tight radius beach breaks while holding long arcs with control in large, open face point and reef waves....all without forsaking paddle power and stability.
