

MF CATFISH WHITE MICK FANNING SOFTBOARDS

Code: F22-MF-CFW

€ 419,95

MF CATFISH WHITE MICK FANNING SOFTBOARDS

The CatFish is fast and super fun! Inspired by the speed and flow of boards from the experimental 1970's where there were no rules! This hybrid design has a slightly decreased nose area when compared to a standard keel or quad fish. The bottom is designed to increase water flow under the front foot and then release it with ease through the fins and tail. The result is fast acceleration with drive out of turns.

This design is a response to wanting to have a softboard in the quiver that will surf in a more diverse range of conditions. You won't need to reach for the standard shortboard until the waves are head high.

The CatFish will handle most conditions you throw at, especially when you upgrade your fins to the FCSII Split Keel or Futures Controller set!

SIZING:

5'4 x 19 1/4 x 2 1/4 27L

5'8 x 20 x 2 1/2 33L

5'10 x 20 1/4 x 2 3/4 37L

Rocker: Low/Med

Fins: FCSII - Five Fin

Bottom Contours: Single To Double

Outline: Swallow Tail

Construction: Epoxy Core, Carbon Spine

Colour: White
