

MF MICK FANNING BEASTIE SUPERSOFT WHITE TEAL

Code: S23-MF-SFW-700

€ 419,95

MF MICK FANNING BEASTIE SUPERSOFT WHITE TEAL

The Super Soft name says it all! The Beastie has been designed to be the ultimate fun board.

This is a true soft board built utilising traditional construction techniques. Super Soft is lightweight, extremely durable, flexible and perfect for entry-level surfers or finless surfing!

The volume is really well distributed for such a large board with a generous outline that provides a stable platform for catching waves and is the perfect board for those looking to progress their surfing to the next level or as an alternative to a longboard. The tail width provides lift and acceleration in the weakest waves creating and provides a super generous sweet spot.
