

OCEAN & EARTH GRIP RYAN CALLINAN SIGNATURE TAIL PAD LIME

Code: TP62 L

€ 46,00

OCEAN & EARTH GRIP RYAN CALLINAN SIGNATURE TAIL PAD LIME

High performance traction, custom designed & refined by Ryan Callinan. Constructed from lightweight, high impact, water resistant EVA

Length: 305mm
Width: 298mm
Pieces: 3
Arch: 7mm
Kick: 25mm
Groove: Base-Flex, Perforation

POWER KICK 25mm

High density EVA foam wedge inserted into the tail kick resulting in added control and drive.

WATERPROOF EVA

Developed to improve all round performance in our technical grips. CC55 Closed Cell EVA is lighter, waterproof and super thin.

KICK FLEX

If a board has a rolled deck, the Kick Flex insert on the tail kick helps the grip mould to the same shape as the board. (used on solid kicks only)

SUPERIOR ADHESIVE BACKING

4A high grade adhesive formula, developed for EVA offers maximum, long lasting adhesion.

CC55 EVA

O&E's unique CC55 is a closed cell EVA formula which has been developed to be UV stabilised, water resistant, super grippy, extremely thin and light weight. The addition of purposely positioned perforation and slots also reduces weight and adds extra grip for toes to grip onto resulting in MORE DRIVE, GRIP, PRECISION
