Composition

83% Nylon, 17% Elastane

FEATURES & BENEFITS

Extra warm 3d lining, full taping for watertight seams, external seal for added warmth, flexible and durable body-mapped neoprene.

WARMFLIGHT ECO INFARED

The warmest thermo liner built with infrared technology that traps and reuses body heat from within the raised fabric surface, and keeps you surfing longer in colder water.

STRETCH FLIGHT

Flexibility where you need it. durability where it counts. This neoprene is designed to give you the best of both worlds.

LIQUID FLEX SEAL

A stretchy liquid seal over the GBS seams prevents leaking without hindering flexibility.

We're more committed than ever to ensuring our wetsuits perform in the water but have low impact on the environment. Quiksilver wetsuits feature sustainable materials and processes.

NATURAL LIMESTONE NEOPRENE

replacing petrochemicals.

WATER-BASED LAMINATION

using water-based glues eliminating the need for toxic solvents.

RECYCLED MATERIALS

Recycling scrap rubber tires and neoprene waste.
