"We wanted to create fashion yet major function throughout. Everything has a reason on size or the way it closes. The camera compartment on the bottom was selfishly sized to fit my exact cameras as I have the largest height of any Canon camera body made so you know every DSLR camera will fit without being too tall. And yes my full size SPL Waterhousing with two handles on the sides fits in the top and closes! The top features a roll down and clip-to-close function; this allows you to have more or less room as you need for different items packed."- Zak Noyle

Dimensions. 60/47 x 20 x 30 CM
