

SLATER DESIGNS 5 PIECE TRACTION ARCH PAD GREY

Code: PADK-T-5A-GYBK

€ 54,00

SLATER DESIGN 5 PIECE TRACTION ARCH PAD GREY ALGAE FOAM

Our newest approach to back foot traction.

Kelly asked for an additional 'cutaway' on the arch. And our audience on Instagram asked for an arch pad with square tread. Cutaway sections in the back third of the pad are placed for tight angles off the bottom. And circular and parallel cutaways in the first two thirds are placed for pumping with foot further forward.

FEATURES

5mm thick X 9mm Arch X 27mm Kick
12.65" W x 13.5" H
5 Piece pad
Diamond tread
Center Arch
3M adhesive backing

BLOOM is a high-performance flexible foam made from algae biomass harvested from freshwater sources throughout the world. The BLOOM Foam process:

- Helps improve the quality of waterways by removing excess algae that harms plants, animals, and people who rely on the ecosystem for survival.
- Recirculates fresh water back into the habitat.
- Aids CO2 capture and sequestration. We're literally scraping pond scum, solar drying, and pulverizing it before foaming the material to create a pad that helps re-balance the natural ecology, and reduces our dependence on non-renewable oil.

Through this patented algae-technology, we have created a product with increased durability, improved shock absorption and reduced weight over conventional foams. The packaging is made with post-consumer backing, soy-based inks and a biodegradable wrapping.

By choosing this traction, you are helping make the world a cleaner place.
