SLIDE SURFSKATE FISH DRIFTER 32"

With its wide nose and smooth line, great fun to surf the streets and have everything under control. The graduated kicktail allows sharp pivot turns and hold through slides.

The Fish is a perfect shape for those surfers used to extra volume at the nose of their board. It is a stable board, really enjoyable for those riders looking for a model that enables them to slide and practice tight turns, but also for those improving balance when turning and generating speed.
