### TORQ TET LONGBOARD CLASSIC 8'6"

Appealing to those who are looking for more volume and better glide than a funboard, but aren't interested in a full-size longboard. Great performance in thigh-high to slightly over head-high waves, this board is a tremendous wave catcher.

A medium entry rocker gets you moving and provides the glide needed on smaller, weaker days. Our fin system is designed by Futures Fins of California - one of the most respected fin systems on the planet.

8'6"; MALIBU dim. 22 1/2" x 3 1/8"; Future 3 fins (67.2 ltr)
