VANS AUTHENTIC VR3 SALT WASH LODEN FROST SHOES

The Salt Wash Authentic VR3 SF blends sustainable design with our timeless surf-based lace-up shoe to create an upgraded, comfortable collapsible heel style. Featuring uppers made from 50% organic cotton canvas and responsibly sourced suede, enhanced comfort with our biobased foam VR3Cush™ footbed, and a new VR3Waffle™ outsole that uses regeneratively grown natural rubber, this classic low top silhouette fuses modern and vintage detailing. Our team has set ambitious sustainability goals. Big or small, all of our efforts add up to positive change. To earn the VR3 Checkerboard globe logo, at least 30% of the product must be made up of recycled, renewable, and/or regenerative materials. **PRODUCT FEATURES** • **UPPER MATERIAL:** Made with 50% Organic Cotton Canvas and Suede. Vans leather products support responsible manufacturing via the Leather Working Group • **FOOTBED:** The new VR3Cush™ footbed is made using at least 25% biobased EVA foam partially derived from plants per the ASTM D6866-16 testing standard. • **OUTSOLE:** All of the rubber used to make the VR3Waffle™ outsole (60% of the compound) is regeneratively grown natural rubber sourced from farms utilizing agricultural practices that are intended to promote biodiversity, enhance water cycles, improve soil health, and/or sequester carbon. This new rubber compound was developed and engineered to maintain the grip and durability Vans has been known for since '66.
