VANS BERLE PRO SHOES INCENSE

Less Parts. More Command. Less Slip. More Grip.

Global Skate Team rider Elijah Berle's first-ever signature shoe—the Berle Pro—pushes the boundaries of skate progression with breakthrough WaffleControl technology, and the deceptively simple silhouette is packed with only the necessary tools for its sole purpose: skateboarding. Featuring DURACAP™-reinforced uppers, new medial gum rubber enhancements for extended toe durability, and LuxLiner for a snug overall fit, the Berle Pro proves that less can be more when it comes to pushing the boundaries of skate progression. It is made with sturdy canvas and suede uppers.

- VANS WAFFLECONTROL CONSTRUCTION - decreases the number of individual parts separating the foot from the board to deliver next level control, responsiveness, and built-in cushioning.
- VANS ORIGINAL WAFFLE Compound - our classic gum rubber compound is made of a rubber that offers grip and support.
- unrivalled DURABILITY - Reinforced DURACAP™ underlays and are built to withstand the daily abuse of skateboarding.
- LOCKED-IN FIT - The LUXLINER™ tongue and internal liner integration provides the locked-in fit that skaters demand.

Composition: Leather, Textile, Rubber

DURACAP™

The added DURACAP reinforcement rubber underlays in high-wear areas are engineered to withstand the abuse of the vans pro skate team—and by providing lasting durability, save everyday skateboarders time and money.

LUXLINER

Vans LUXLINER integrates the tongue and internal lining to deliver a comfortable, breathable, and responsive fit.

WAFFLECONTROL CONSTRUCTION

By decreasing the number of individual parts separating the foot from the board, Vans' breakthrough WaffleControl technology delivers next-level board control, responsiveness, and built-in cushioning to further push the boundaries of skate progression.
